**ARDASHES AGOSHIAN
MUSIC EDUCATION CENTER
INSTRUMENT LESSONS, COMPOSITION COURSES
& ENSEMBLE COACHING**

Dear Lifelong Learners,

What is your dream in music?

Is it playing an instrument? Composing and/or arranging music? Or are you playing an instrument but you don't know how to hit the next level? Maybe you have a vocal or instrumental ensemble and you (and your group) need coaching?

All these dreams and aspirations can come true with hard work and a reliable education system. "[Agoshian Music Education Center](#)"© is here to provide the system that you need. "Personally Designed Education Model"© (PDEM) is the most important feature of the system. It means that the whole education curriculum will be tailored especially to your needs. The aim is to improve your abilities, desires and targets not only in music but also in life because music is an inseparable part of it.

Ardashes Agoshian

PRIVATE INSTRUMENT LESSONS

- I give piano, classical guitar, bass guitar, and double bass lessons at all levels in English, Western Armenian and Turkish. I also speak basic Dutch. You should choose one instrument. If you can play one of them at an intermediate level, then you can learn one more instrument if you want to.
- I will add some instrument lessons in different languages with experienced teaching staff in the near future.
- I give lessons to children (minimum 9 years old) and adults (without age limit).
- I expect each student to have their own instrument. I do not provide instruments and books but I am going to share my contacts for renting instruments and buying books.
- I can help you prepare for the entrance exams of music schools in all levels and [Conservatories](#). For a successful result, please get information from the school and contact me as early as possible.
- Every musician at every level should share their music with the public. I will organize some student concerts, and you will be expected to play there to improve your stage performance abilities.
- The instrument lessons are divided into four sections: Improvisation, scales/arpeggios, exercises/etudes and repertoire.
- I have mentoring programs for upper intermediate and advanced instrumentalists for building and keeping repertoires and recordings.
- This program has an online option. It requires a fast Internet connection and a basic system with a sound card and a microphone (optional).

Reminder: 9-15 years old students would require certain psychological support about the daily practice from family.
